

AYSO REGION 205

BLOOD PROTOCOL

WE ARE AYSO

- Attend to the player immediately. Do not get them up to leave the field
- If the parents are available, have them tend to their child
- Use the enclosed rubber gloves
- As soon as the bleeding is contained, remove the player from the field
- Determine if the player needs additional medical attention. If so, call them and the parents/guardians or contact information on their registration form.
- Dilute the blood on the field with water. Dilute all blood from clothing with water. No one can return to the field of play with blood stains on their clothing.
